Profile

Highly motivated, hard working and passionated student in computer sciences. I am interested in new technologies and enjoy manipulating data. Experienced as a project manager and team player in different projects.

Education

Two year university technical diploma   **2020-2022**
Computer sciences, sensitive data option
IUT Lannion, Brittany

Highschool leaving certificate   **2019**
Sciences, engineering sciences option
La Croix-Rouge Lasalle Brest, Brittany

Projects

Personal website   **2021**
I designed and developed a personal website on which are presented my projects, my skills and several other information about me.
Programming languages: HTML/CSS, Bootstrap, Gitlab
skills: Autonomy, creativity

SuperGame   **2020-2021**
I developed and created an exchange platform for the distribution of video games. (Project manager)
Programming languages: Java, Gitlab
skills: Teamwork, autonomy, creativity, communication

Personal interests

I enjoy playing video games (mainly rhythm and competitive games).
I played football for nine years and petanque for three years.

Work experience

Thalès   **2017**
Observation internship in 9th grade allowing me to discover several professions and sectors that interest me related to computer sciences.
